

What Is Your Patent Worth?

When inventors, businesses and others approach us about selling their patents, they often do not have any idea what their patents might be worth. Companies that approach us about acquiring patents often do not know what the potential patent acquisition properties are worth or what a seller might be willing to accept. To address these needs, TransactionsIP offers three patent valuation services that are fast, affordable and easy to order.

High Quality, Yet Affordable

What sets apart TransactionsIP's patent valuation services are that we deliver a high-quality analysis by utilizing a senior licensing/patent brokerage expert in the valuation and review of your intellectual property. Our reports are not simply generated by an automated software package.

Basic Patent Valuation:

For just \$300 you will receive a report that gives you a current market valuation and provides a low- and high-value estimate for your issued U.S. Patent or published U.S. Patent Application. A senior licensing/patent brokerage expert provides a market approach valuation taking into account several patent value metrics:

- Forward and reverse references
- Remaining life
- Number of claims, length of the independent claims, & claim strength
- Market Score
- Technology and Commercial Score
- Foreign counterpart status (optional)
- Turn Around Time = 1 week

Enhanced Patent Valuation:

For \$900 you receive an expanded report that is written and reviewed by a senior licensing/patent brokerage expert for your issued U.S. Patent or published U.S. Patent Application. It provides a detailed analysis that includes all elements in the Basic Patent Valuation plus:

- Market analysis & Growth Projections
- Current and Potential Commercial Use
- Opinion of the overall patent strength
- Subject Expert Summary
- Foreign counterpart status (optional)
- Turn Around Time = 2 weeks

Comprehensive Patent Valuation:

For \$2500 you will receive a comprehensive analysis and report that is written by a senior licensing/patent brokerage expert. It provides a detailed, in-depth analysis that includes all elements in the Basic Patent Valuation and the Enhanced Patent Valuation plus:

- Applicable market coverage
- Key players in market
- Technology and product review
- Relevant potential licensees
- Market litigation analysis
- Subject Expert Analysis & Summary
- Turn Around Time = 3 weeks
